SKILLS

- Project Management
- Public Relations
- Teamwork
- Time Management
- Leadership
- Strong Communication
- Critical Thinking
- Simulation (Matlab)

LANGUAGES

- Arabic
- English

REFERENCE

Personal references are available upon request

PROFILE

Electrical Engineering senior student with a strong academic background and practical experience in Arduino-based projects and basic electronic systems. Possesses excellent communication and teamwork skills gained through participation in university activities and event organization. A fast learner who adapts quickly to new technologies and engineering tools. Seeking an opportunity to apply technical knowledge and problem-solving skills in a professional engineering environment.

PROJECTS

Elevator using Type E Chopper Circuit (December 2025)

- Built an Arduino-controlled elevator using a Type E chopper circuit and DC motor.
- Developed 3D models and implemented a working prototype from handmade wood, using a bicycle chain mechanism to drive up/down motion.
- Used an ultrasonic sensor for position measurement to ensure accurate movement based on programmed distances (3cm).

Reverse Parking Car Sensor (January 2025)

- Developed using Arduino Nano and an ultrasonic sensor.
- Welded the pins through the Arduino Nano.
- Connected the wires using a breadboard.

AC to DC Converter (November 2024)

- Designed using a center tapped transformer, rectifier and an LM317 voltage regulator.
- Convert 230V AC to a stable 5V DC output.
- Powered a motor connected to a small fan

Traffic Light System (December 2023)

- Implemented using Arduino UNO and an ultrasonic sensor.
- If the object remains for 5 seconds, the Arduino starts a countdown.
- Simulation: Used Tinkercad to test the circuit before implementation

EDUCATION

Bachelor of Science in Electrical Engineering 2022–June 2026
University of Bahrain
GPA: 3.07 / 4.0

AL-Tawon Secondary School 2019-2022
Major: Physics and Mathematics
Accumulative GPA: 96.2%
